@elevated_thought

"The Return" is an art exhibition highlighting and introducing the works of our new staff. We are all inspired to be creative in any capacity and to make space in our lives to reflect and be surrounded by art. This joy connects us and drives us to share our love for art and justice with others. Everyone was asked to bring in pieces from their own archives that best introduce their style, philosophy, or vision. We hope these pieces bring you closer to our understanding of arts liberating power and to the individuals that are making this new chapter in ET history possible.
